INTRODUCTION

Orthodontic Journal of Nepal (OJN) is an official publication of Orthodontic & Dentofacial Orthopedic Association of Nepal (ODOAN). OJN is a biannual, peer-reviewed, open-access, international orthodontic journal (ISSN 2091-1327 Print & 2091-1335 Online). OJN is indexed with NepJOL (Nepal Journals Online), Directory of Open Access Journals (DOAJ), Hinari, Google Scholar and China National Knowledge Infrastructure (CNKI).

AIM

The aim of the journal is to publish quality peer reviewed articles pertaining to the areas of orthodontics and related interdisciplinary subjects. Research, review and case reports in the fields of craniofacial growth and development, genetics, craniofacial anomalies, diagnosis, orthodontic mechanotherapy, biomechanics, material science, esthetics, epidemiology and other related issues are encouraged.

The journal aims to promote research in the fields of orthodontic and provide researchers, academicians, clinicians and students a platform for knowledge transfer and dissemination of their reports. The journal encourages the researchers to perform Meta analysis, systematic reviews and randomized clinical trials with an objective for evidence-based reports.

The journal is intended for international readership with focus to South Asia region. The studies and reports pertaining to subjects and environment of Nepal are encouraged.

TYPES OF ARTICLES

In each issue of OJN, articles may be published under following sections:

- Editorial
- Original/Research article
- Clinical research
- Review article
- Case report
- Medical/Dental education
- Clinical Innovation/Recent advances
- Short communication
- Techno bytes

Besides the regular types of articles; the journal may publish articles under categories like Proceedings/Declaration of Conference/Congress, Supplements, Interview, Biography, Clinical Audit, News, Events, Updates, Announcement, Notice etc.

AUTHORSHIP CRITERIA

To qualify for the authorship for the publication in OJN; the author must have contributed substantially to the intellectual content of the manuscript such as: objective, concept design, data collection, data analysis and interpretation, manuscript drafting, critical review, statistical analysis and supervision.

The total number of authors including the Principal author in an article should not exceed 4 (four). Only one article of a Principal Author shall be published in an issue; however there is no restriction for Co-authors and subsequent authors.

There shall be corresponding author for the article; the e-mail address of whom will be mentioned in the publication.

MANUSCRIPT PROCESSING

All manuscripts must be type written; addressed and submitted to the Chief Editor, OJN. Authors must submit manuscripts through email in the following addresses:

editor.ojn@gmail.com and rabindraortho@gmail.com

WRITING PATTERN

For uniformity and standardization among various articles in the journal; all matters submitted for publication should follow the pattern as described in “Uniform requirements for manuscripts submitted to biomedical journals” published by International Committee of Medical Journal Editors (ICMJE). Please cite www.icmje.org

LANGUAGE AND GRAMMAR

The language of the manuscript should be simple and legible, which must be written in United Kingdom (UK) English without grammatical, typographical and bibliographical errors. The manuscript must be proof-red before submission.

Manuscript should use proper language that serves the purpose of effective communication. Manuscript should not be written in contraction. For example: can’t, don’t, won’t, & etc.

When images (e.g., photographs/drawings) are to be included in the manuscript submission; clearly scanned image free from technical artifact should be submitted. Magnifications, areas of key interest should be indicated by an arrow, symbol or abbreviation; the details of which should be explained at the bottom of the figures. Each figure must be cited in order within the text (e.g., Figure 1). Captions for each image must be provided in the last page of the manuscript.

SPECIFICATION OF THE MANUSCRIPT SUBMISSION

Format: Microsoft Word (.doc or .docx)
Front Size/Style: 12/Times New Roman
Spacing: 1.5
Border spacing: 1 inch (all sides)
Page number: Right hand bottom
Image file format: jpeg or.tif
Resolution: 300 dpi (dot per inch)

TABLES

Tables used in the manuscript must comprehend to the pertaining data or results. They should be as few as possible and should present only essential data. Each table should contain the relevant title or caption and clearly numbered. Each table must be cited in order within the text (e.g., Table 3).

UNITS AND ABBREVIATIONS

All measurements used in the manuscript should be expressed in Standard international (SI) units. Abbreviations may be used in the article but it should be avoided in the title and abstract. All abbreviations should be fully explained at their first occurrence in the text.

DRUG/MATERIA MEDICA NAMES

Generic drug names should be used and commercially available brand name of the drug/materia medica or dental materials should be avoided. The article manuscript should not endorse the commercial brand.

ETHICAL CONSIDERATION

Manuscripts submitted for publication must comply with the ethical consideration. Ethical clearance from the respective Institutional ethical or review board is sought for the publication of research article.

Investigation and surgery on human subjects should conform to the guidelines noted in the World Health Organization Chronicle 1976; 30:360-362.

INFORMED CONSENT

Informed consent of the patients must be taken before they are considered for participation in the study. Patient identifying information such as names, initials, hospital numbers or photographs should not be included written descriptions. Patient consent should be obtained in written and archived with authors.

PROTECTION OF HUMAN SUBJECT AND ANIMALS IN RESEARCH

When conducting experiments on human subjects, appropriate approval must be obtained from the Ethical Committee. All the procedures on human experimentation must be performed in accordance with the ethical standards of the responsible ethical committee (both institutional and national) and the Helsinki Declaration of 1964 (as revised in 2008). When reporting experiments on animals, authors must follow the institutional and national guidelines for the care and use of laboratory animals.

PERMISSION

Authors must obtain written permission for the borrowed and previously published material and submit them with the manuscript. The borrowed material should be acknowledged.

ACKNOWLEDGEMENT

The author may acknowledge the person/s or organization/s or funding sources that assisted the author in the course of experimentation, data collection, and analysis or during manuscript writing.

REFERENCE

Authors are strictly instructed to follow Vancouver system for citing references. A comprehensive explanation of the system can be cited in the following link:

ADVERTISEMENT POLICY

The contents that appear in the advertisement in the journal do not represent the official views of the Journal or the Association; and is not endorsed by the Association.
